### A POPULAR OFFICER

The Canadian Pacific Steamships, Ltd., S. S. "Montreal," which has just completed her maiden trip across the Atlantic is under the command of Capt. G. S. Webster, R.N.R., R.D. He was born on September 3rd, 1867, and joined Messrs. Elder Dempster & Co., on Mar. 21st, 1892. Capt. Webster is one of the most popular skippers on the Atlantic; his first Canadian Pacific command was the "Lake Michigan" in April, 1903, when Elder Dempster's Steamers were taken over by the C. P. R. Since 1903 Capt. Webster has commanded such well-known C. P. R. liners as the "Montrose," "Lake Champlain," "Lake Manitoba," and "Empress of Britain," and during the War the "Metagama" and "Melita" made many voyages across the Atlantic under his charge.

CAPT. G. S. WEBSTER

## DON'T WALK OUT, STAY AND ENJOY SOME OF BOW ISLAND'S PROSPERITY

### What Is Bow Island Going To Do To Secure Our Fair Share Of Revenue From This Gas?

#### We Have Gone Through Hard Times Long Enough

If We Don't Act, Some Corporation May Step In  
And Walk off With The Whole Lot.

### BOW ISLAND GAS MAY BE USED FOR U.S. DIRIGIBLES

Million Cubic Feet of Helium  
Gas is Wanted in This  
Field Monthly

Helium gas, which is found in large amounts at Bow Island where 1,000,000 cubic feet is wasted monthly in natural gas, will be the future fuel for dirigibles, according to the United States government, press dispatches from Washington announce. This gas is a non-explosive, which makes it superior to hydrogen, for dirigible purposes. What this may mean to Bow Island, which has the largest sources of Helium Gas in the British Empire cannot now be estimated, but it may develop into an enormous industry, as it has been estimated that the value of the Helium lost at Bow Island amounts to \$1,200,000 a year.

The only other place in the empire where this precious gas is found is the gas wells of Southern Ontario, which given only one tenth the amount supplied at Bow Island. The United States authorities have been brought to the decision to utilize Helium Gas by the fact that approximately one hundred lives have been lost in two big disasters to dirigibles within the past year; and that in each of these air tragedies the big toll of death resulted from the combustion of the highly inflammable hydrogen gas which has been used for lifting their dirigibles. The first of these disasters occurred at Hull, England, and the second at Norfolk, Virginia, on Monday, when 34 further lives were

added to the list of hydrogen gas victims. The possibly approaching exhaustion of the gas supply of these two Canadian districts led the council to recommend to the government that it take necessary steps to reserve to itself all future supplies of Helium from these wells, which recommendation was approved of by the Minister of Interior, who informed the council that "all petroleum and natural gas leases issued on and after March 2, 1914, may be taken absolute possession of by the Minister, including machinery and all works, wherever the government of Canada thinks such action is necessary."

**Lost \$1,200,000 Every Year**  
Just imagine, we people of Bow Island have been juggling with the Spectre of hard times and poor trade for the last 3 or 4 years—and all the time we have been letting \$1,200,000 escape from us every year. Don't we feel like hitting ourselves?

"The Review" wonders why the British and Canadian Governments don't keep this costly gas for the benefit of their own countries and people, instead of for the dirigibles of the United States?

If any other country had this "priceless Helium Gas" found in vast quantities at Bow Island, would they let us have it so easily, we might doubt it?

Britain Wake Up!  
"The Review" thinks that the date given 26d. March 1914, by the Minister of the Interior, should be investigated because it may let some individual or corporation get away with vast quantities of this Priceless Helium Gas found at Bow Island.

### BOW ISLAND

Mrs. Cochrane has returned to her home in Bangor, Mich. U.S. after visiting her daughter here. Mrs. K. Bateman.

Donovan Keyes has left for Cullin, Montana to live with his mother there.

We are very pleased to report that Mrs. John Martin is progressing so well from her serious attack of sickness and we hope she will take good care and wait for the warmer days to come, before she ventures out.

We are sorry to say that Mr. Cullen met with a very painful accident when he was taking a match from the tin and the whole box set alight thus burning his right hand rather badly.

The Wolf family are now better from their siege of sickness and the children have again started school.

### (Correspondence) Respecting Council Meetings

Bow Island  
27th. February 1922

To the Editor  
Bow Island and Burdett Reviews  
Bow Island, Alta.

Dear Editor  
I and several other Ratepayers have been thinking together about your offer to give that "Free Service" for the benefit of all Ratepayers, in printing the "Minutes" of all School Boards and Town or Municipal Councils of all the Districts your "Reviews" go into. We know that it costs you money to do this printing "Free" for us Ratepayers, but we feel sure that your action is and will be appreciated and that any Orders you can do, will be sent to you by all Councils in our Districts who believe in "Fair play."

We as Ratepayers who eventually have to find that money, we much like to know where it goes to and what good it has done, and these "Minutes" when published are the very thing, for we appreciate our Review very much.

I must add that your "Review" is looked forward to with pleasure by all in our family, the kiddies for the Pictures and we older ones for the news, and there is some grumbling if we forget to call for it at the Post Office when in town.

Your truly  
"Ratepayer."

The "Review" feels very glad that its offer of "Free Service" in connection with printing of "Minutes" that "Ratepayer" refers to in the above letter, is appreciated by the Ratepayers. Any expression of appreciation for our work on behalf of the community, is now and will always be cordially welcomed by the "Review."

### BOW ISLAND

The Church Services held at All Saints' Church by the Rev. F. R. B. Leacock last Sunday were fairly well attended in the evening but the biting cold weather kept many away from the Morning Service at which Holy Communion was celebrated.

Mrs. B. T. Whitney the Organist gave sweet and appropriate music at all the services Morning, Afternoon and Evening.

All Saints' Sunday School was taken by the Rev. Leacock and Miss Irene Ridgdale was Organist and played very nicely for the Sunday School.

Master Roy Martin gave a nice rendering of the solo "The Dandelion and Heavenly Birth" at the Baptismal Service held last Sunday afternoon, when the little daughter of Mr. and Mrs. Wood's was christened, Dorothy Elizabeth and also the little sons of Mr. and Mrs. Telf. The elder child, Richard Coleman. The younger one, George Gordon.

We see quite a nice future for Master Roy Martin, if he still keeps up his steady study of music and study of Character building ideals to which he now has a strong inclination.

The All Saints' Ladies' Aid met at the home of Mrs. Gies Thomas last Thursday, when the usual number of members were present and all enjoyed the time so served by the hostess.

The next meeting will be held at the home of Mrs. B. T. Whitney on Thursday the 9th. March.

Mr. Norman McKnight and Mr. Keen of Maleb were business visitors to Bow Island last Monday.

### Bow Island News

The regular meeting of the U. F. A. met in the G. W. V. A. Hall last Saturday 25th. February. A good crowd attended. J. D. James occupied the chair the minutes of the last meeting were read by the secretary Mrs. G. Calder several communications were read from different firms from Lethbridge and Calgary districts, with regard to hay and oats, but as money was scarce no orders were placed.

The debate committee reported and F. Henderson and Mr. Hanna were chosen as opposites to debate on the subject, "Why is farming not a success in Alberta?" Mr. Hanna taking the side, that farming is a success, and Mr. Henderson taking the side "Why farming is not a success", each Captain chose four judges and the gentlemen out of the audience to debate, Mr. Henderson chose the following: Mrs. Still, Mrs. Thomas, Mrs. Potter, Mrs. Thompson, Mr. McGregor Mr. A. Anderson, and Mr. Barkman. Mr. Hanna chose the following: Mrs. McGregor, Mrs. James, Mrs. Schenert, Mrs. Henderson, Mr. Thompson, Mr. Halpin, and Mr. Calder. Mrs. Hanna, Mrs. Bell and Mrs. Rolfe acted as judges. Mr. Henderson gave a brief outline why farming was not a success, owing to the drought and high winds. Mr. McGregor said that farming was not a success and when we plowed down the grass we plowed down the best crop, and this was a wasting country not a farmland. Mr. Henderson said it wasn't a success on account of the drought, outcrops, grasshoppers, and a thousand and one other pests. Mr. Barkman said the country was not a success because we couldn't grow feed and seed had to get from the government and that farming would never be a success here. Mrs. Still gave a brief outline of farming as a business and a business that people who are not self supporting are not supporting as farmers have to get assistance from the Government, therefore farming is not a success here. Mrs. Thomas said farming was not a success as we had to hire Haffield the rainmaker, and he was not a success. Mrs. Potter said she was on the wrong side and she would not run down the country where she got her bread and butter.

Mrs. Thompson said farming was not a success and the only reason that people starved here was because they were too poor to get out.

Mr. Hanna gave a brief outline and said that "Farming was a success he said. 'You'll have to admit that I have made a success, if not to grow wheat I have been raising a good crop of children. Mr. Halpin gave a good talk on the success of farming as many farmers had done well here and built up fine homes and bought more land and that farming has been a success in the past and felt sure it would be in the future. Mr. Thompson said that most of the ground was covered and that there was not much left for him to say but he felt that farming would be a success if farmers would grow more feed and stock and not try to get rich by growing wheat. Mr. Calder absent.

## British Embargo On Canadian Cattle Is To Remain In Force

London.—The embargo on Canadian cattle stands. And eyes of "C" in the House of Commons, Right Hon. Sir Arthur Griffith-Boscawen, president of the board of agriculture, announced that, in view of the almost unanimous opinion of agriculturists of England and Wales, the removal of the restrictions would seriously injure the industry, and the fact that the Royal Commission appointed to investigate the question had reported that its removal would have little effect on the price of meat in the United Kingdom, the government was not prepared to introduce legislation for the free entry of Canadian cattle.

Asked whether the opinion of agriculturists in Scotland was also considered, the minister answered in the affirmative, but said there was a very great difference of opinion in that country respecting the embargo. Further questioned as to whether the government had given a pledge to the Canadian Government that the war the embargo would be removed, Sir Arthur replied that he believed certain pledges were given at the Imperial Conference in 1917, but that the Canadian Government most properly had always taken the view that they did not wish to interfere with our home affairs, and that if they were convinced that the removal of the embargo would be detrimental to our interests, they would not press the matter.

## JAPAN STOPS WORK ON BATTLE CRUISERS

### EIGHT IN COURSE OF CONSTRUCTION WILL BE SCRAPPED

Tokio.—The navy department has formally ordered the various dockyards to stop construction work on the eight battlehips and cruisers now on the ways which are also to be scrapped in accordance with the Washington agreement.

Construction of auxiliary craft set for the year 1921-1925 will be advanced to the present in order to afford employment for the dockyard workers. It is announced by the chief of naval construction, Vice-Admiral Noda.

**Fire Los \$40,000**  
Calgary.—Fire which broke out in the interior of the McCreary and Peterson's store completely destroyed the stock and damaged the five-room house above, causing damage estimated at approximately \$40,000. The origin of the fire has not yet been ascertained. The damage is covered by insurance.

**Queen's Gift to Princess Mary**  
London.—One of the Queen's wedding presents to Princess Mary will be a gorgeous illuminated prayer book which the Princess is to receive on the marriage service. The prayer book will be specially printed and arranged.

**Floods in Australia**  
London.—The recent floods in the State of Queensland, Australia, caused enormous losses among sheep and cattle, cables Reuters' correspondent at Brisbane.

## Sir James Craig Issues Manifesto On Kidnapping Incident

Belfast.—Sir James Craig, premier of Ulster, issued a manifesto to the people of Northern Ireland declaring the British Government was responsible for the day's kidnapping outrages because of its demoralization of the special constabulary following the Irish truce.

The kidnapping incidents, declared Sir James, would strengthen the Ulstermen's determination that "what Ulster has she holds."

The manifesto follows: "I have received with grave concern and deep regret news of incursions into the territory of Northern Ireland by armed bands of the Irish republican army. I send deepest sympathy to the relatives of those murdered, and complaint most highly by the various constabulary forces who so promptly met and overcame the lawless and lawless gangs to rid our borders of the enemy."

"Had the British Government shown outrage this would never have occurred. I place the responsibility

## Germany Makes Third Payment

Paris.—The German Government has made its third payment on "blue sky" legislation to the Allied Reparations Commission in accordance with the ten-day payment schedule recently adopted by the commission at Cannes, according to an announcement by the Temps.

## SAYS CANADA NEEDS A BLUE SKY LAW

O'Brien Believes It Would Protect People From Promoters

Toronto.—In the opinion of A. H. O'Brien, who has submitted a report on "blue sky" legislation to the Attorney-General, it is necessary and important to devise such legislation as will effectively cover a large majority of evils of stock promotions and at the same time be so hindrance to legitimate business.

"People of the United States are being defrauded annually of \$500,000,000 and the people of Canada of \$100,000,000 by 'worthless' promotions, and the more extensive of a blue sky law will lighten these evil and promotions away," Mr. O'Brien said.

Mr. O'Brien suggests that the Ontario law be a compilation of the laws found in the United States and special clauses adapted to local conditions. A mere fraud act would not suffice to cure and prevent existing evils, he said.

## Inferior Work on Theatre

Evidence Submitted at Enquiry into Washington Disaster

Washington.—A list of "21 deficiencies" of work of inferior grade for such an important structure was submitted in an exhaustive report on the collapse of the Knickerbocker Theatre, by five army and navy engineers at the coroner's inquest into the disaster. The fall of the theatre's roof caused the loss of 38 lives.

## Conference Futile

Premier Smuts Fails to Reach Agreement With Miners

London.—Premier Smuts of the Union of South Africa had another conference in Pretoria with representatives of the gold and coal mines on strike, with a view to reaching an understanding. But the conference was fruitless, according to a Reuters dispatch from Pretoria.

## Big Sum to Settle Claims

London.—Supplementary civil service estimates issued show that a sum of nearly £1,500,000 will be required on account of the Royal Irish Constabulary, and £1,210,000 to be granted to the Irish provisional government for compensation for criminal injuries pending the settlement between the two governments.

on their shoulders for having demoralized the special constabulary in consequence of the truce. I would have returned at once had it not been necessary for me to take prompt and vigorous steps on this side to ensure that such an outrage on the people of Ulster cannot again be perpetrated and that those of our people who were carried across the border are speedily returned to their homes."

"I may be relied upon to back up every individual in Ulster who is considered wise to support our authorities and have arranged for the immediate distribution of arms necessary to protect our border. Every help will be given, and I reiterate my firm determination, as announced to Mr. Lloyd George, Monday, to sue to surrender any portion of our territory except with the consent of myself and our Ulster Government."

"This series of daily outrages will never be forgotten; I have strengthened our determination that what Ulster has she holds."

## SUGGESTS SENDING WHEAT TO RUSSIA

MR. QUEEN  
Manitoba Should Charter Steamer Is Opinion of

Winnipeg.—The resolution by William Robson, leader of the Farmer party, for a reduction in the salaries of cabinet ministers and officials in the civil service, was declared lost on a verbal vote in the legislature.

That Manitoba should charter a steamer and send it loaded with wheat to famine-stricken Russia, was the suggestion made by Mr. Queen, when moving a resolution urging the government to do something in aid of the starving millions there. Mr. Queen spoke for over an hour and quoted many writers, in support of his claim that conditions in Russia are appalling. The debate was adjourned.

## Bulgaria's War Debt

Payment of Cessual Sum Would Wreck Country

Sofia.—Bulgaria is under a burden of debt and indemnities which its finances say will take several generations to liquidate. Under the peace treaty the smallest of the belligerent nations is required to pay the Allies 2,225,000,000 francs gold (\$450,000,000).

Converted into Bulgarian francs (levas) at the current rate of exchange, the amounts to the Bulgarians total of £7,000,000,000. If to this sum is added the country's external and internal debt of 40,000,000,000 levass, a total of 100,000,000,000 levass is reached. (Nominally a Bulgarian leva would be worth about 10 cents.)

Nobody knows, even the Bulgars themselves, how this colossal sum can be paid without wrecking the country and exhausting its resources. Under the Neuilly agreement the Bulgarians were to pay their first instalment of the £100,000,000 indemnity in 1915, but up to the present they have lapsed in three instalments.

## Certificates Are Popular in Britain

Sale Since February, 1916, Passes 500 Million Mark

London.—With the sale of nearly two million national savings certificates during the last week of June, the total sale since the first issue of this class of security in February, 1916, exceeds the 500,000,000 mark. This is equivalent to more than 357,500,000 pounds sterling, of which the amount withdrawn amounts to £91,000,000. On and after April 1 next the certificates will be sold at a rate of 15s. 6d.

## Celebrates 100th Birthday

Rev. T. M. Jeffries of Oakville Began Ministry in 1847

Oakville, Ont.—In the person of Rev. T. M. Jeffries, the town of Oakville can boast of having as a citizen the oldest Methodist preacher on the whole American continent and paragon in the world.

On Feb. 6 Mr. Jeffries was 100 years old. To have lived under four British sovereigns; to have suffered shipwreck on his way to Canada and to have succeeded runaway slaves who reached Canada, are only a few of the many experiences that have fallen to the lot of this veteran who began his ministry in the backwoods of Tippecanoe in 1847.

**Pioneer in Fishing Industry**  
Gloucester, Mass.—Capt. Solomon Jacobs, who is said to have blazed the trail for the fishing industry in the Pacific, died at his home here. He was born in England in 1852.

THE PIPE OF PEACE  
—Manchester (England) Sunday Chronicle

## WESTERN EDITORS

Thos. W. Green, Publisher of the Times, Taber, Alberta.

## APPROVAL OF FISHING BOUNTIES

GOVERNOR-IN-COUNCIL HAS PLACED BASIS FOR YEAR

Ottawa.—Approval of the amounts to be paid in fishing bounties during the coming year has been given by the governor-in-council on the following basis: Vessels—Owners of vessels entitled to receive the bounty are to receive \$1 per registered ton, the payment to the owner of any one vessel not to exceed \$30, and vessels' fishermen entitled to receive the bounty shall be paid \$7 each. Bots—Fishermen engaged in fishing from boats who are entitled to receive bounty shall be paid \$3.50 each and the owners of said boats \$1 per boat.

## Requires Sanction Of Government

Application Must Be Made for Absorption of Merchants Bank

Ottawa.—Now that the shareholders of the Merchants Bank of Canada have agreed to absorb of their institution by the Bank of Montreal, permission of the government will be necessary before the two banks can be merged. Following the meeting of the Merchants Bank shareholders, application must be made to the government for authority to go on with the undertaking. This application will be dealt with by the treasury board, and permission will be granted if the board sees fit to do so. There is no reason to think that it will be refused in the case of the Merchants Bank and the Bank of Montreal.

## In Charge of Tour

Montreal.—Major Fred A. Neg, of Winnipeg, founder and honorary orator of the Overseas Educational League, and secretary of the National Council of Education of Canada, will have charge of a party of over three hundred Canadian school teachers who will tour Europe during the coming summer. The party will sail from Montreal about July 1.

## Grades For Butter

Toronto.—At a special meeting of the Ontario Creamery Men's Association it was decided voluntarily to establish two grades of cream—number one, that which would make first grade butter, and number two, the remainder of the material. The difference in price will be about three cents per pound of butter fat.

## U.S. Suspends Work on Battleships

Washington.—All construction work on 14 capital ships of the United States navy, now building, was suspended by Secretary Denby at the direction of President Harding.

## France Will Ask For Guarantees Before Going To Genoa Meet

## FIRST STEP TOWARD LASTING PEACE

JAPANESE PREMIER'S OPINION OF RESULTS OF WASHINGTON CONFERENCE

Tokio.—The conference reached at the Washington conference marks the first step toward establishment of a real and lasting peace, with the possibility of abolition of armaments. Premier Baron Takahashi told the House of Peers.

"The Imperial Government does not pretend that the conference was an unqualified success as viewed from an individual standpoint," he said. "It does believe with the other powers that the present agreements are the first step toward realization of a real and lasting peace, and that such agreements will grow in the future even into an understanding for the total abolition of defense equipment."

The premier's utterance came in reply to an interpellation by Baron Sakamaki.

Optimism in both social and industrial circles is that the ten-year naval holiday will prove a decade of peace and prosperity for Japan.

## Firemen Sent to Prison

Refused to Work on Government Freighter With Negro

Vancouver.—Twenty firemen who refused to work in the stokehold of the Canadian Government Merchant Marine freighter, Canadian Winner, because a West Indian negro was employed there, were sentenced to four months' imprisonment each by two magistrates in the Admiralty Court. The men, who pleaded guilty, were punished under the Admiralty Act. Magistrate Prescott pointed out that the ship had been held up three days through the action of the men, incurring damage of \$700 a day. When the Winner sailed for the Orient with a new crew the West Indian was working in the stokehold.

## Fear Further Raids by Sinn Fein

As Action Is Taken Things Will Become Serious

Dublin.—Michael Collins, head of the provisional government, has received a telegram from the Sinn Fein active in Cookstown, County Tyrone, saying: "Specials (constabulary) are believed to be mobilized around here for further raids and outrages. Appropriate action must be taken by the members; if not stopped quickly, will be serious."

Mr. Collins immediately informed the British Government, stating that such action by the specials could only be carried out with the support of the British troops and adding that the provisional government was doing its utmost to get the situation under control, but if the action reported at Cookstown was taken things would become extremely serious.

## Potato Warehouse Burned

Overheated Stove Causes Loss of More Than \$75,000

Edgemoor, Wis.—Sunset Farms, the largest potato warehouse in the State, was destroyed by fire which started from an overheated stove. Twenty thousand bushels of potatoes were in the warehouse, and the loss of potatoes standing on a nearby side track, were consumed. The loss is estimated at more than \$75,000.

## Daylight Saving for Britain

Bill Introduced to Make Plan a Permanent One

London.—A bill has been introduced in the House of Commons by the government proposed for permanent summer time in the United Kingdom, beginning on Saturday of March 21st and terminating the first Sunday in October of each year. These dates are fixed in agreement with France and Belgium.

## May Affiliate With O.B.U.

Brydson, N.B.—First steps towards affiliation with the One Big Union have been taken by the Mechanics' local of the United Mine Workers at Brydson, N.B. At a regularly constituted meeting the mechanics' local instructed its president and secretary to communicate with the secretary of the One Big Union in Winnipeg with a view to effecting affiliation.

Paris.—Premier Poincaré has reaffirmed the French Government's determination to seek guarantees before going to the international conference at Genoa. He made this clear at a secret session of the foreign affairs commission of the chamber of deputies to which he gave complete details of the government's plans and copies of documents.

The premier said it was France's right and duty before going to Genoa to get the necessary assurances that none of her rights under existing treaties nor those concerning the League of Nations would be jeopardized. But as to whether French delegates should attend or not, he said: "It is not for France to either accept or decline an invitation issued in her name."

London.—It is unlikely that the French Government's request for a three months' delay in the opening of the Genoa conference will be met by Great Britain. It was stated in official circles here.

There are no objections in a delay of a week or even two weeks, it was said, but so far as Great Britain is concerned the solution of the problems of the world must be decided by the conference would not be benefited by months of preliminary investigation.

Decision of the question of delay, however, obviously rests with the cabinet, which is considering the French proposals regarding the agenda of the conference.

## Market for Canadian Films

Successful Producer Says Exports Can Run Into Millions

Toronto.—The Canadian film market for 30 Canadian made pictures per year and the distributing terms offered guarantee handsome profits to the Canadian producers. Says a Canadian Shipman, himself a successful Canadian film producer, at a dinner given in his honor by the Arts and Letters Club by Col. John A. Cooper.

"If production can be brought up to its stage we will be exporting \$1,000,000 worth of pictures annually to other countries. The foreign market now demands the trade mark 'Canadian made' on our product. It is 'red up' on the so-called stock picture, which mostly represents the class, political and sex problems of the American people."

## Suspect Fire Was Not Accidental

Survivors Believe Northern Pacific Tempered With at Berth

New York News.—Victims of the former transport Northern Pacific, which was burned at sea with a loss of 100 lives, are not convinced that the burning of the ship was wholly accidental.

While neither Captain William Luecke, the ship's commander, nor any member of the crew would make a formal statement concerning the fire, some of the survivors expressed their suspicion of foul play. Belief was expressed among the survivors that the fire was the result of some activity on board the vessel before she left her berth at Brooklyn.

## Appeal for Cordial Relations

France and Great Britain Beg to Put to Rest

London.—The Franco-British Association, says Reuter's correspondent in London, has issued a long appeal to public opinion on both sides of the English Channel to preserve the entente cordiale between France and Great Britain which, the appeal says, is now going through a test on the result of which hangs the fate and civilization of Europe. It urges the conclusion of a real entente by the signing on a basis of equality of the pact which is now the subject of negotiation between the two countries.

## Appoint Regent Woman

Toronto.—Announcement is made of appointment of Miss Jean E. Browne, director of school hygiene of the Saskatchewan Department of Education, as the post of director of the Junior section of the Canadian Red Cross Society, with headquarters in Toronto.

## Rancheros Cremated

Providence, R.I.—Four valuable rancheros were burned to death and 10,000 lbs. was estimated when a fire destroyed stables owned by Thomas McGrath of this city, at Hillgrove, near here.

### Burdett News

From our own Correspondent

The farmers of this district are very busy these days trying to procure hay for their horses. It is time to be feeding now in order to have them in trim for the spring work.

Owing to the inclemency of the weather, the U.F.A. cancelled their meeting for the evening of the 28th, and as the Hall was warm, Mr. Sandy and the young people have an impromptu dance and there was a goodly party gathered and spent an enjoyable evening.

A subscriber has asked the "Review" to publish the following Poetry that was composed in the year 1900.

**Suggested by the  
cruel fate of Ethel B. Dingle**

"From the Spirit-world a mother's eye  
Is searching in vain to-night  
For a wandering girl whose faltering steps  
She has tried to lead aright  
In the battle with sin when tempted to yield  
With tenderness love she has tried to shield  
Her child from its curse and blight

A score of years has rolled away  
Since the day when she tenderly pressed  
In her cottage room, on the household place  
That innocent babe to her breast  
And joy divine to her mother heart came

When she heard from the lips of the young  
Of him who the little ones blest  
But the road was rough, and strewn  
With thorns

This loved one had to tread  
Weary and weak at last she fell  
From wounds that pained and bled  
Motherless, friendless with no where to go  
Conquered by man her bitterest foe  
Even her blood to shed

And fighting her battle with demons  
Affectionate and fair  
Fate's cruel, hunted misled and deceived  
With no one here sorrow to share  
How could you mar, oh merciless man  
The beautiful clay from the Potter's hand

And drive a soul to despair  
She had seen in her high proud dreams  
A palace where she-a wife  
With her dear ones around her  
A worthy and noble life  
How could you, brother, so brutal and shame  
Forget yourself, your God and His grace

In your savage passionate strife  
And they of the white robed saintly  
Who had answered her plea with scorn  
And left her alone in the direst need  
Her terrible fate to mourn  
It was easy to sneer at another's wrongs  
Their were hid, while their evil tongues  
Her name of honor had shored

On the weary wandering, wayward one  
Oh God let Thy Mercy smile  
Give courage and strength to fainting hearts  
Such no men shall not defile

And to her who faileth, though struggling brave  
Thy Mercy extend beyond the grave  
Thou Friend of a motherless child  
Peter Larsen  
Cutterangus, N.Y., April 24th, 1903

### Burdett News

BORN.—To Mr. and Mrs. V.Y. Howe at the Maternity Hospital at Medicine Hat, a son.

Mr. and Mrs. Mansfield entertained a number of young folks on Wednesday Feb. 22 in honor of their guest Miss Richardson.

The infant child of Charlie Sing who has been so ill with pneumonia is thought to be on the way to recovery.

Mr. and Mrs. Howell have been visiting in Burdett for some time have returned to their home in Smithers, B.C.

Owing to the recent cut in the price of coal there was a "Land Office" rush on at the coal sheds, and those who were not fortunate enough to get in the cut, are pining that they will have to go to the local mines, as there is no coal in the Village. The continued cold weather has exhausted a great many coal piles.

R.B. Clark who has been visiting in Lethbridge has returned home.

Miss Lawson teacher of the Intermediate grades is confined to the house with a cold.

### Burdett News

On Friday last Feb. 24th, the R.S.A.S. entertained the School-children of the district, at their desire the School was closed at 3 p.m. and about 130 children repaired to the theatre where the ladies awaited them. The proceedings opened with a Grand March after which games, dancing and singing took up the time, several of the ladies sang for them and the kiddies for the ladies. At 2 o'clock they were found in line, with Mrs. Enard at the piano, and marched past a table gossling with goodies which were handed to each child as they went by. To judge by the happy faces they all enjoyed themselves immensely. There were 30 mothers and friends present who were entertained with a cup of tea, and they appeared to enjoy it quite as much as the little ones, altogether the afternoon was a decided success.

The R.S.A.S. wish to thank all who helped them to make it so. Much thanks is due to Mrs. Enard who so splendidly handled the children, keeping perfect order, also for the time she spent at the piano.

Election of councillors for the Municipality of Bow Island took place at the house of C. Kinnin, on Feb. 24th. Candidates were Mr. Fred Henderson and Mr. Benson. Mr. Henderson was returned by a majority of 20 to 12.

By courtesy of the Regal Film Co. Calgary who donated the film, the R.S.A.S. were able to put on a picture show called a "Dangerous Paradise" on Saturday the 26th. There was a good turnout and the Ladies were able to add a tidy sum to their bank account which had been somewhat depleted, owing to the demands that had been made upon it.

## Officers of the "Empress of Scotland"

Commander G. C. Evans, O.B.E., of the "Empress of Scotland" and his Officers, Photographed in New York Harbor, February 1, 1922.

Seated (left to right): Cadets K. Hutchings, De Hauteville-Bell and J. B. Hewson, R.N.R. Standing (left to right): Chief Officer Robert McMurray, R.N.R., Third Officer Thomas Jones, Commander G. C. Evans, O.B.E., First Officer H. A. Moore, R.N.R., Staff Captain E. Alkman, R.D., R.N.R., Fourth Officer T. R. Lucan, Fifth Officer J. P. Dobson, R.N.R., and Second Officer T. L. Blair.

The Canadian Pacific Steamship "Empress of Scotland" 25,000 tons registered, which sailed from New York for a 61 days' tour of the Mediterranean, Europe, Egypt and the Orient of the British Empire. Staff Captain Alkman was a veteran, Commander G. C. Evans O.B.E., and Staff Captain T. Alkman, R.N.R. Commander Evans was decorated by King George for his services in the transport, and convey of troops through the submarine zone during the war and his meritorious service as an officer of the Order of the British Empire. Staff Captain Alkman was a veteran of the war when the United States Navy Destroyer "Manley" got too near the "Molauge" while delivering dispatches and 5 tons of depth bombs loaded with T.N.T. exploded on the "Manley's" stern and deck killing 6 men, and the two ships. The "Manley's" stern got under Alkman's ship as she sank with the vessel and the depth bombs were set off, causing one of the sea tragedies of war not reported in the newspapers.
